CR-SDL-SSX1

Lever Activated, Faucet Assembly

Sanitary dispense lever with stainless steel faucet:

- Ridged stainless steel lever, extends 1.75" below nozzle
- Self closing, spring loaded
- Downward pointing nozzle
- Comes with optional stainless steel tap cap
- Use on custom draft towers and as a retrofit kit for CBR towers

CR-SDL-SSX1 with ergo handle on a CBR-V1WHT

Features and Benefits

- Robust, stainless steel faucet design
- Integrated stainless steel adjustable flow compensator
- Touchless, stainless steel lever activated dispense
- Easy to clean
- User and maintenance friendly
- ADA friendly
- Adapts to CBR and other Crysalli towers
- Use on custom draft towers for self service use

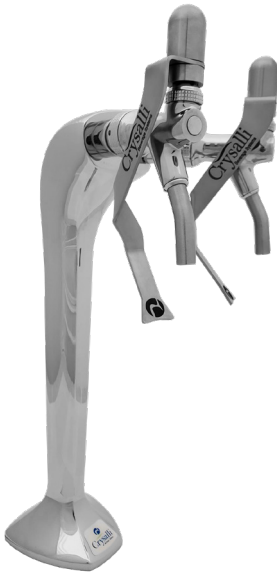

CR-SDL-SSX1 Assembly components:

- SSX0101 faucet with shank and ring
- Stainless steel sanitary lever
- Optional stainless steel pivot ball cap
- Threaded jam nut for use with ergo handle
- Two piece pivot ball mounting clamp
- 3/32" hex wrench
- 4-40 SS screws

Two CR-SDL-SSX1 kits
on a CBR-V2C tower

CR-SDL-SSX1 kit on a
CBR-V1WHT tower

When modifying standard CBR towers with the CR-SDL-SSX1 kit, the new faucet with downward pointing nozzle will reduce bottle filling clearance by 1 inch, to 11" of clearance

When ordering the sanitary dispense levers factory configured on new CBR towers, add SDLX part number to your CBR model number:

CBR-V1-SDLX for a single valve tower

CBR-V2-SDLX for a two valve tower

CBR-V3-SDLX for a three valve tower
