## ProFusion Countertop System

N₂ Beverages on Tap

- Nitrogenated and Still Beverage on Tap.
- Flash chills ambient temp keged beverages.
- The system utilizes one keg of cold brew coffee, tea or your craft beverage of choice to dispense two different style beverages.
- Simple set-up: one keg connection and one gas connection.
- Integrated ProFusion injector nitrogenates the beverage at the time of dispense
- Two on-board regulators feed both the keg and injector pressures.
- Built in stainless steel particulate filter, 50 micron, washable and reusable.
- Optional custom tap handles available.
- 304 stainless steel brushed finish faucet plate and drip pan
